## Summary

Dutch Oracle-certified technical consultant specialized in SOA, EAI and BPM solutions, with multiple years of experience in designing and building software with Java and Oracle Fusion Middleware technology in the financial, utilities, telecom and internet industry in Europe and Asia.

## Experience

Jan 2012 - **Senior Middleware Consultant, Equinix.**

present Working as a Senior Middleware consultant for Equinix Global Development Center in Singapore.

A sample of projects that I have worked on:

- Integration between Oracle EBS and Salesforce
- Migration of Java EE applications from Oracle Weblogic to Apache Tomcat
- Coordinating development efforts with offshore vendor for iPhone application

Worked with the following technologies:

- Java Enterprise Edition (Java EE)
- Web Services
- JMS
- Spring Core
- Spring Web Services
- Spring Security
- PL/SQL
- Apache Tomcat
- Oracle Database

Oct 2011 - **EAI Consultant, TMNS.**

Dec 2011 Working as a EAI Consultant, specialized in designing and building integration solutions based on Oracle Fusion Middleware, for customers in the telecom industry.

Oct 2011 - **Oracle Fusion Middleware Consultant**, *UPC Broadband*.

Dec 2011 Main tasks involved:

- Design & Build Pan-European CRM-to-Provisioning Integration solutions with Oracle BPEL, Oracle Service Bus and Oracle Database
- Troubleshooting SOA Suite on production environments
- Performance analysis and tuning of Oracle SOA Suite on Weblogic Server

Worked with the following technologies:

- Oracle SOA Suite (BPEL, OSB)
- Java
- JMS
- PL/SQL
- Weblogic Server 11g
- Red Hat Linux

Jan 2011 - **Web Application Consultant**, *Vattenfall*.

Oct 2011 Working as an Application Consultant in the Common IT Web Services Solutions Netherlands at Vattenfall (acquired Nuon).

Main tasks involve designing and developing web applications on a project basis.

A sample of projects that I have worked on:

- Prototyping mobile HTML5 website for E-Mobility customers
- Redesign of nationwide used customer self-service portal
- Development on energy trading web application

Worked with the following technologies:

- Weblogic Server 9/10
- Java
- JSP
- Spring (MVC, Batch, Web Flow)
- Struts
- Hibernate
- XSL
- JavaScript
- Oracle Database 10g/11g
- SDL Tridion
- Google Web Toolkit (GWT)
- Agile / Scrum projects

Sep 2009 - **EAI Application Consultant**, *Nuon*.

Jan 2011 Working as an Application Consultant in the Open Integration Platform Design & Build Team at Nuon ICT.

Main tasks involve designing and developing software for enterprise integration solutions on a project basis.

A sample of projects that I have worked on:

- Automation of the Internet self-service customer move process with Oracle BPM
- Building web services with Oracle Service Bus for the Google Search Appliance
- Migration of Weblogic Integration processes to Oracle Service Bus

Worked with the following technologies:

- Oracle BPM 10g3 / BEA Aqualogic BPM
- Oracle Service Bus 10g3 / BEA Aqualogic Service Bus
- Weblogic Server 9/10
- Weblogic Integration
- Weblogic Portal
- Java
- Oracle Database (PL/SQL)
- Web Services (SOAP, WSDL, XQuery, XSD)

Jan 2008 - **Oracle BPEL Developer**, *Rabobank*.

Sep 2009 Tasks included:

- Developing BPEL services for the CRMi 2005+ project
- Creating deployment and testing frameworks for Oracle SOA Suite
- 3rd Line Support for Oracle middleware
- PL/SQL development

Worked with the following technologies:

- Oracle BPEL Process Manager
- Oracle Application Server
- IBM MQ
- Interfacing with Siebel CRM and legacy COBOL systems
- Oracle Database, PL/SQL
- Java
- Web Services (SOAP, WSDL, XSLT, XSD)

Nov 2007 - **Technical Consultant**, *Oracle*.

Aug 2009 Worked as a Technical Consultant in the SOA Unit of Oracle Consulting Netherlands.

Hired as part of an Oracle graduate program, received a range of soft-skill trainings: communication, presentation, time management, negotiation techniques, personality profiling.

Followed Oracle University courses on entire range of Oracle Fusion Middleware products: BPEL, ESB, Coherence, BEA Weblogic, ESB, Database, etc.

2006 - 2007 **Software tester**, *TOPdesk*.

Part-time job as a functional software tester. Tasks involved testing desktop and web application of TOPDesk - software for ITIL-based service desk management.

Jun 2005 - **Software Development Internship**, *Almende b.v.*.

Aug 2005 As part of the final Bachelor of Science project worked as C programming intern at a commercial research institute. Worked for three months with a co-student on a novel communication and coordination platform for distributed agent-based applications.

## Education

2005 - 2008 **Computer Science, MSc.**, *Technische Universiteit Delft*.

- Specialized in Parallel and Distributed Systems with a focus on Grid Computing.
- Master Thesis subject: Trace-based Performance Analysis of Scheduling Bags of Tasks in Grids
- Co-author of two publications as part of research internship

2002 - 2005 **Software Engineering, BSc.**, *Technische Universiteit Delft*.

## Certifications

- ITIL Foundation Certificate in IT-Service Management v2
- Oracle Certified Professional, Java SE 6 Programmer

## Skills

Java	BPEL
XSLT	PL/SQL
Oracle SOA Suite	Oracle Service Bus
Weblogic	Oracle BPM
Web Services	SOA
EAI	ESB
Oracle BPEL	SOAP
WSDL	JSP
XQuery	XSD
Aqualogic	JMS
Middleware	J2EE
Tomcat	HTML5
Python	JavaScript
